

KT70

Data Sheet

Features & Benefits

- Class-leading product protection for -20°C (frozen), +5°C (refrigerated) and +20°C (room temperature), using Phase-change technology
- Extended product protection for 120+ hrs for -80°C to -20°C (deep frozen) using dry ice
- Providing significant environmental advantages over disposable and semi-reusable systems
- Integral datalogger providing full audit trail and real-time internal and external temperature records
- Sub-pallet-sized small payload
- No human intervention required throughout transit

Container	Configuration Temp (°C)	External Dimensions (mm)	Internal Dimensions (mm)	Internal Payload (Litres)	System Tare Weight (kg)	Volumetric Weight (kg)
KT70D-60	-80 to -60	680 x 560 x 850	350 x 185 x 285	18	80	54
KT70D	-80 to -20	680 x 560 x 850	464 x 346 x 650	104	26	54
KT70F	-25 to -15	680 x 560 x 850	340 x 285 x 460	45	71	54
KT70R-H	+2 to +8	680 x 560 x 850	340 x 285 x 460	45	64	54
KT70T	+15 to +25	680 x 560 x 850	340 x 285 x 460	45	81	54
